WORK EXPERIENCE

Avada Group - Full Stack Developer → Tech Lead (Jan 2026) **Mar 2025 – Present**

AP Speed Optimizer - Technical Owner | #2 for "speed" on the Shopify App Store

- Grew the app almost from scratch - set the product roadmap and direction, scaling to 5,000+ active merchants (~500 new merchants/month) with consecutive month-over-month revenue growth since Apr 2026
- Designed a done-for-you Speed Expert service and a standardized optimization workflow for speed experts to follow - lifting merchants' store conversion rates by up to 20-25%
- Reduced the app's infrastructure costs by over 60%

Avada AEO SEO Optimizer LLMs - Tech Lead | #1 for "aeo" on the Shopify App Store

- Led prompt tracking and Shopify Catalog tracking - built the pipeline to crawl, generate and store prompt sets for each store, measuring how often the store is mentioned when asking ChatGPT, Gemini, Claude and other models, and tracking its ranking in Shopify Catalog

Avada SEO Suite (~50k merchants)

- Developed the bulk image optimization pipeline, processing hundreds of thousands to millions of product images per merchant at scale
- Reduced infrastructure costs by 50%

Leadership & Product

- Shaped product direction - market research, business model and pricing input, solution design, then measuring outcomes and reporting
- Mentored engineers to upskill and grow; set technical direction and code review standards
- Drove AI-first engineering - built AI automation (auto bug-fix bot, automated code review) and trained the team on AI-assisted development and site speed optimization

Stack: React.js, Koa.js, Firebase, Google Cloud Run, Cloud Functions, BigQuery, Pub/Sub, Cloud Storage

VNPT Technology - Full Stack Developer **Aug 2023 – Feb 2025**

- IOFFICE – Document Management System: Maintained and extended features for a government document management platform, facilitating inter-departmental and cross-provincial document workflows across public agencies nationwide
  - *Stack: Java, PL/SQL, Oracle*
- Automation Management System: Developed an internal system to automate device management processes for VNPT Net's network operations
  - *Stack: TypeScript, Vue.js, NestJS, MySQL*
